WSK
International

- we are the people with quality commitment

For 50 years WSK brand is present and well recognized in the world marine market of spare parts for Alfa Laval fuel and oil separators. Strategically located in Central Europe, we started in 1951 as a manufacturer of radiators, heat exchangers and other elements for cooling systems of heavy vehicles and planes. In 1961 we started manufacturing complete separators and their spare parts, continuously expanding our knowledge, improving processes and machinery for the next 50 years. All our products, brand new, have 12-month warranty and 100% interchangeability with genuine makers observing all dimensions, tolerances and material specifications. Simply something you can rely on.

...speaking price-wise

It has never been our ambition to be the cheapest in the market. In terms of company image, offered products and technical support we are strict: no quality-doubtful replacements.

Following standards and procedures - ISO9001 and ISO14001 certification by LR, GL and others - we also care about our reliability and your safety.

WSK
International

- we are the people with quality commitment

Because quality product requires quality treatment

Our spare parts and packages are clearly marked with labels, our taping plus your and our order reference number to make order identification easier and faster for your forwarders and vessel's staff.
